2012

Alegria is infectious. More and more people get interested in natural horsemanship. The project has fans from all over the world. Ibiza's schools get included and book a school trip as part of their course, this way even more children are reached. More and more horses are sighted in fields and paddocks. Grievances get reported and solutions are found without our help.

Important Points 2012:

- ≡ The Federation of Race Trotting invites Alegria to an event. 12 children and their horses show their abilities in front of a huge audience and fierce critics.
- ≡ A show of high standard, only with pupils and horses from Alegria
- ≡ 45 children are taught, 15 of them free of charge
- ≡ 3 young talents and their horses are sponsored
- ≡ The horse from the success story 2011 is bought by two girls from Switzerland who saved up for a long time. Toto moves to Davos and inspires his new community with the philosophy of Alegria.
The seed is carried further.
