

Karen Sailer subsidizes 50% of the costs of the project

Your donation 2012 was used for:

- Tuition for 15 children from low income families and sponsorship of 3 young talents and their horses
- 2 events to spread a new consciousness
- Upkeep and medical care of 4 project horses
- Fodder donation to private persons who took on a destitute horse.

2013

Alegria gets a permanent place in NOAHS GARDEN.

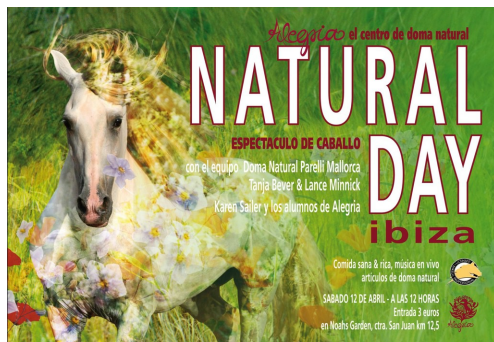

Stables, meadows and a riding arena are built. The project becomes a fixed institution on the island and is recognised by the authorities and municipalities. More people become aware that they can't do their horses justice but also don't have the means to do it any better. This increases the pressure to find a place for these animals. That's why our biggest success this year is the establishing of Can Horse.

Important Points 2013:

- ≡ The publicity bears fruit and grants Ibiza with the horse shelter Can Horse. The society is founded by an Italian family who became aware of the situation through Alegria. Can Horse takes over the initial maintenance and mediation for the horses and does an excellent PR job.
- ≡ Karen Sailer takes a breather. Instead of new events she plans the future of Alegria, with a focus on the education of children. She travels to the Green School in Bali, the International Council of 13 Indigenous Grandmothers, as well as conferences on world peace and the future
- ≡ 6 volunteers support the work of Alegria
- ≡ 50% of the costs are subsidized by Karen Sailer

Your donation 2013 was used for:

- ≡ Free tuition for 8 children from low income families
- ≡ The sponsoring of one young talent and horse
- ≡ Upkeep and medical care of 3 project horses
- ≡ Assisting Can Horse with fodder and medical donations

2014

Alegria presents the new show NATURAL DAY. For the first time horses and riders from Mallorca take part. A fixed group of 12 children is taught, 5 of them for free. 2 pupils are educated as co-trainers. 8 volunteers support us. The dry winter ruins 80% of the roughage harvest and threatens the existence of Can Horse.

Alegria and Noahs Garden launch a big fundraising campaign and manage to deliver the fodder for Can

Horse from the mainland. Karen's energy goes mainly into the planning of 2015.
